

Plan Review Application & Process

See Unified Development Ordinance 18.40.110

Preliminary Site Development

Final Site Development

Step 1 – Pre-Application Process

The applicant is required to meet with City Planning staff prior to submitting an application. There are two types of pre-application meetings, depending on the scope of the project: (A) a Discovery meeting; and (B) a Project Evaluation meeting. More than one pre-application meeting may be required by staff as needed.

A) Discovery Meeting

This meeting gives staff the opportunity to identify issues that may be addressed prior to the application being submitted and identify special studies needed in conjunction with the application. In addition, the meeting allows the applicant to explain issues that shaped the initial design of the project and ask questions about the application procedures. This exchange of information can often make the process go more smoothly. It is not necessary to have detailed plans drawn prior to the meeting. However, the more information brought to the meeting (even in sketch form), the more thorough and specific the staff can be in response. Depending on the complexity of the project, this meeting may be waived at the discretion of the Planning representative.

Purpose

- Acquaint the applicant with the procedural requirements.
- Provide for an exchange of information regarding the proposed development and the regulations, restrictions and requirements, the *Comprehensive Plan* and other development requirements.
- Advise the applicant of any public sources of information that may aid the application, identify policies and regulations that create opportunities or pose significant restraints for the proposed development.
- Review proposed concept plans and provide the applicant with opportunities to enrich the development plan to mitigate any undesirable project consequences;
- Review the compatibility with adjacent land uses, either proposed or existing; and
- Provide general assistance by City staff on the overall design of the proposed development.

B) Project Evaluation Meeting

This meeting allows staff to meet with the applicant and discuss the changes made to the project up to this point, as well as additional concerns both parties may have during the remainder of the process. At the conclusion of this meeting, the applicant should be aware of all materials needed for filing the application and the correct format for all documents. Additional staff comments and revisions may be required as a result of this meeting. Depending on the changes required by City staff, it may be necessary to have a second project evaluation meeting prior to filing the application.

Purpose

- Provide a more in-depth review of the plans with the applicant prior to filing the application;
- Review plan corrections based on comments made by the applicant with respect to staff's comments during the discovery meeting;
- Advise the applicant of any additional revisions that are necessary prior to filing the application; and
- Provide general assistance by City staff on the overall design of the plan.

Schedule a Meeting

Applicants may schedule a meeting by creating an account and submitting a request at: <https://energov.olatheks.org>. For more information contact the Planning Division at 913-971-8750, Monday through Friday, 8 a.m. to 5 p.m.

Please be aware that the meetings are not intended to cover all issues related to the development process, and decisions/discussions during the pre-application process are subject to change based on information submitted at the time the application is filed.

Step 2 – Site Development Plan Submittal Requirement Checklist

Applications missing any of the following items will be considered incomplete and rejected.

Requirements

- Application Form** complete with names and addresses of developer, owner, engineer, and/or architect.
- Ownership Affidavit Form**
- Legal Description** of the property in print and on disk (Microsoft Word)
- Filing Fee** (See Planning Application Fees)
- One 8"x11"** reduction of each sheet in the site development plans.
- Two (2) Folded Copies** of the preliminary site development plans or final site development plans pursuant to Section UDO 18.94.040
- Traffic Impact Study** according to *Access Management Plan*.
- Preliminary Water Quality Report** per *Olathe Municipal Code Title 17*
- Stormwater Drainage Plan** with computations per *Olathe Municipal Code Title 17*
- Stormwater Management Report** (detention required) per *Olathe Municipal Code Title 17*
- Assurances of Adequate Public Facilities** as required by Section UDO 18.04.060
- Completed Checklist** (this form)

Residential Subdivisions (in Districts R-1, RP-1, R-2, RP-2, and TN)

- Master Fence/Screening Plan** as required by Section UDO 18.30.130.H

Step 3 – Submit the Application

An application for Plan Review must be completed and submitted to the City Planning Division with the proper filing fee, payable to the City of Olathe. See the Schedule of Fees and Charges for the applicable application fee. An application may be withdrawn at any time upon written request; however, no refund will be made after the application has been accepted. A complete application consists of all items identified in the Submittal Requirements checklist. (See attached pages)

Plan review applications will be placed on the Planning Commission agenda based upon the completeness of the application submittal. All additional information, which is to support the application, must be submitted by the deadline date. Failure to meet the application submittal requirements checklist will result in the application being rejected.

Step 4 – Development Review Committee (DRC)

Every application goes through a detailed staff review. Although a member of the Planning staff is assigned to coordinate the review of each application, the focal point of the process is the meeting of the Development Review Committee. This is a staff-only committee consisting of 10 to 15 representatives of various city departments that review each item on the agenda, and identifies relevant issues. From this meeting, the departments will prepare written comments on the proposed application. The staff comments will be sent to all parties listed on the application form (via fax or email) on the Wednesday before the Monday Applicant's Meeting. (See

Planning Commission Calendar)

The comments prepared by staff based on this meeting are intended to be a complete list of changes required by the applicant prior to the Planning Commission meeting. However, some circumstances may warrant additional staff comments following the applicant meeting to ensure compliance with City codes and ordinances. For example, if a change is requested by City staff and the solution presented by the applicant creates an unforeseen issue, staff may provide additional comments to correct the problem.

Step 5 – Applicant’s Meeting

The applicant will meet with staff (generally, Planning, Public Works, Code Administration, Fire, Utilities, Traffic and Parks) in City Hall. This meeting is not the appropriate forum to discuss policy issues or negotiate any agreements.

The applicant’s meeting is:

- To allow City staff to present preliminary comments regarding the Development Plans and discuss revisions with the applicant.
- To give the applicant an opportunity to ask questions.
- To work out a schedule for submitting revised plans

If a case involves policy issues or items that may be resolved through a development agreement, the City Planning Division will schedule a separate meeting with appropriate City staff. However, alternative solutions to technical problems that are within the authority of the staff to consider may be discussed. If an applicant has questions, it would be helpful to call ahead of time so the staff can be prepared with answers at the meeting. If extensive changes are being made or more information is needed to adequately review the application (e.g. additional traffic or engineering studies), then the application may be “continued” (i.e., rescheduled to a later Planning Commission meeting date to allow time for the necessary work to be completed).

Step 6 – Planning Commission Meeting

The Olathe City Planning Commission meets on the 2nd and 4th Monday of each month at 7:00 p.m. in the New City Hall Council Meeting Room at 100 E. Santa Fe. THE AGENDA AND STAFF REPORTS WILL BE AVAILABLE THE WEDNESDAY PRECEDING THE PLANNING COMMISSION MEETING. For each item on the agenda, the applicant will be given an opportunity to make their own presentation. However, if the plan review application is placed on the consent agenda, no presentation by the applicant will be required unless requested by the Planning Commission. Presentations should be a brief description of the proposed project and include responses to any concerns raised in the City staff’s report and any additional information which the applicant wishes to bring to the meeting (for example, color renderings, maps, photographs, or petitions). (It is required that all additional information be provided to staff in advance, so it can be included in the Commissioners’ packets.). Staff will then give a staff report and recommendation. The action taken by the Planning Commission on plan reviews is final. There is an opportunity to appeal the Planning Commission’s decision to the City Council. The applicant may request that the plan review be appealed to the City Council by requesting in writing to the City Planning Manager within (5) five business days of the Planning Commission action.

Step 7 – City Council

Plan reviews do not normally require City Council action. However, if the Planning Commission decision is appealed in writing; the plan will be scheduled for a City Council agenda. The Olathe City Council meets on the first and third Tuesday of each month at the Council Chambers of City Hall at 100 East Santa Fe at 7:00 p.m. The format of the meeting is similar to that used by the Planning Commission and applicants should be prepared to make a similar type of presentation. If necessary, after the City Council has listened to the presentations and to any public comments, they will discuss the application and then take action. The City Council can approve the plan, approve with conditions, deny, or remand the application back to the Planning Commission.
