

Garage Doors

Reduce Your Risk

Make your house, specifically your garage, less attractive to thieves.

- Develop a nightly routine, perhaps at bedtime, to check your garage door to ensure it is down and locked.
- Remind your children to close the garage door.
- Lock the door leading from the garage into your house.
- Close and lock your garage door when it is not in use. Thieves have entered the garage while homeowners have been working in the back yard.
- Remove your keys and valuables from your car while it is parked in the garage.

Electric Garage Doors

- Some electric doors can re-open when they hit an obstruction such as ice or snow, rake handles or toys.
- Ensure your garage door opener setting has not been left at the factory preset position.

Security Survey

Contact the Olathe Police Department Community Outreach Unit at 913-971-7500 for a security survey.
