Neighborhood Registration Program
What is Neighborhood Registration?

Neighbors can be the greatest resource when it comes to facilitating a community. This is why the City of Olathe has created the Neighborhood Registration Program. This program will assist citizens as they strive to make a community out of their residential area. A registered neighborhood is an additional connection between the City resources and its citizens. Neighborhood programs help to educate residents on the benefits of organized community as well as support the livelihood of its residents. The City of Olathe aims to provide a direct link between your neighborhood and the City through the implementation of the Neighborhood Registration Program. The purpose of this program is to assist Olathe residents in identifying and establishing neighborhood boundaries, encourage residents to take an active and facilitated role in the organization of their neighborhoods, foster targeted communication between city staff and residents, and to support the growth of location-based pride.
How do I register?

1.) Meet with a few neighbors to decide upon a name for your neighborhood. You must also decide upon the boundaries.
2.) Complete the neighborhood registration form.
3.) Assign a primary contact (neighborhood leader) and secondary contact to represent your neighborhood. These contacts will serve as the main facilitators of conversation between your neighborhood and the City of Olathe.
   - Please Note: The chosen contacts can be HOA board members, but an established HOA is not necessary for completion.

Benefits:

- Neighborhood grant eligibility
- Assistance with neighborhood reconstruction and revitalization
- Development of a neighborhood goals (including short and long term)
- Targeted communication

Responsibilities as primary or secondary Contact:

- Willing to transfer information between the city officials and the residents of your neighborhood
- Attend yearly meetings with the neighborhood committee and other neighborhood leaders
- Assist the city in coordinating neighborhood community service projects
- Advocate and encourage communication among neighbors

You can find the application for the Neighborhood Registration Program [here](#).
